

Thanks for purchasing Joseph Hollo's **Divina DIVA** bank for U-HE Diva

You can also check similar soundbanks by Joseph Hollo for other instruments:

# D I V I N E

Since the release of **Diva** Joseph was torn between the unparalleled "divine" sound quality and the quite restricted structure of the synth. He always thought that he needs more envelopes and LFOs to reach those typical emotional, alive and moving sounds he is famous for.

With his years of experience and persistence he learned to create with less and less options and reach the same high quality outcome.  
Not to mention his explicit attraction for the great sound quality of **Diva**.

So here it is: 136 greatly musical patches.

A "**Divine**" soundset for lovers of lyrical, ethereal, mystical, emotional, evolving, soft, airy and transparent pads, strings and voxes. You can find thick, dramatic and warm analogue synths, soundscapes, basses, leads, plucks. There are playful and magical keys, arpeggios and BPM synchronized pads, plus a handful of useful drums, hits, impacts and percussions.

The expression of the patches are highly optimized through midi controllers such as Velocity (vel), PitchBend (Pb), and Modwheel (Mw).

Please read the patch notes for controller information and tips.

3 pieces of Cubase .cpr and Midi files of the demos are helping understand some suggested use of the patches!

## **System requirements:**

- U-HE Diva 1.4.2 or higher
- host program (DAW) with VST or AU, RTAS support
- WINDOWS or OSX operating system

## **Install notes:**

Unzip to your working Diva preset folder.
