100+1 unique patches!

Most of them are highly transformable by the wonderfully useful Makros. I like to think of my presets as a new, versatile, expressive, standalone instruments.

Thanks for the Massive GUI, the names of the Makros will tell a lot about how to use. I also use to drop some notes where needed.

Cubase .cpr and Midi files of the demos are helping understand some suggested use of the controllers!

Massive Heaven provide lots of emotional inspiration for composers, keyboardists.
