

Thanks for purchasing Joseph **Hollo's padsheaven 3** soundbank for Zebra,  
the third volume of the successful **Padsheaven** series by Joseph Hollo:

# Joseph Hollo's padsheaven3

A huge, detailed, finely crafted selection of alive, lyrical, dramatic pads, drones, widescreen atmospheres.

Furthermore you'll get 32 inspiring arpeggios/rhythmic presets!

## 150 unique patches!

You will get countless different colors, because many of them have even 4 different individualities inside due to the meticulously programmed controllers and Zebras XY pads.

Perfect for any styles from classical pop/rock to moviescores, cinematic underscore to up to date electronica. (+ [a demo MIDI-](#), and [Cubase project file](#))

**PadsHeaven3** provide lots of emotional inspiration for film and ambient composers, keyboardists.

The expression of the patches was highly optimized through common controllers such as **Velocity** (*vel*), **Aftertouch** (*At*), **PitchBend** (*Pb*), **Breath** (*Breath-CC02*), **Expression** (*Xpress-CC11*) and **Modwheel** (*Mw*).

The **Aftertouch**, **Breath** and **Expression** controllers also reachable by the **XY Pads** on *Zebra2's Perform* page, so everyone can try and use them, even if they don't have multi-controller capable masterkeyboard.

**The controllers** will significantly change the sound in many cases, so you can get a totally different sound or character. I highly encourage everyone to play around with all of the assigned controls to find out what's hidden under the hood.

For this reason please open the **Patch Information** for valuable info about the controllers, playability and usage.
