warmed

A huge, detailed, finely crafted selection of alive, lyrical, dramatic, pads, voxes, drones, widescreen atmospheres.

Furthermore you'll get inspiring keys, arpeggios/rhythmic presets!

100+1 unique patches!

You'll find a new, versatile, responsive, highly playable instrument inside most of the presets.

For example "PD Angelic Performance" You can start with a nice voicy soft pad, play at high velocity to let a slow warm strings sneak in, then turn up *Makro2* and some lovely synth Horns begin to play in the mix. With further opening (*Modwheel*) a full blown bright Strings/Orchestra evolves.

Modwheel, *Pitch Bend*, *Velocity* and *Aftertouch* are set. In some cases *Pitch Bend* acting as *Filter Cutoff Up/Down*. More modulations are coming with the 4 *Makros*. You can set these to use with *midi learn* your preferable midi controllers (*right click on the makro*).

You can use those controllers for expressive live playing, and also for fine tuning in your DAW after recording.

Typical use of the *Makros*:

Env speed, (slow or fast strings/pads)

Increase or decrease swelling in a pad, (*Still* or *animated pads*)

Vibrato,

Speed of the *LFO* in *rhythmical* or *trill patches*,

To add more *air* or other openings.

(+ a **demo MIDI-**, and **Cubase project file**)

Warmed provide lots of emotional inspiration for film and ambient composers, keyboardists.
