

Thanks for purchasing Joseph Hollo's e-motion padsheaven soundbank for Spire!
the successor of the original Zebra2 versions:

e-motion padsheaven

is a collection of

- as the name suggests, e-motion is filled with 128 wonderful, emotional, evolving, from deep & warm to icy thin, out of the box production ready pads
- variety of really useful keys, bass and lead, plucked instruments and drum sounds
- re-created synth sounds classics beside the brand-new ideas
- inSpired by the successful Padsheaven series
(128 presets + **demo MIDI-, and Cubase project files**)

E-motion Padsheaven provide lots of emotional inspiration for film and ambient composers, keyboardists.

The expression of the patches was highly optimized through common controllers such as **Velocity** (vel), **Aftertouch** (At), **PitchBend** (Pb), **Breath** (Breath-CC02), **Expression** (Xpress-CC11) and **Modwheel** (Mw).

The controllers will significantly change the sound in many cases, so you can get a totally different sound or character. I highly encourage everyone to play around with all of the assigned controls to find out what's hidden under the hood.

System requirements:

- Reveal Sound Spire 1.0 or newer
- host program (DAW) with VST or AU, RTAS support
