Thanks for purchasing Joseph Hollo's Inspiring Pulses soundbank for HIVE,

You can also check similar soundbanks by Joseph Hollo for other instruments:

INSPIRING PULSES

Inspiring Pulses offers great and interesting new ideas for your next masterpiece:

100 patches of rhythmic and melodic inspiration using all of the lovely tools Hive2's offering: the **Arpeggiator**, the **step Sequencer** and the 4 new **Shape sequencers**.

The main body of the soundset contents 21 **Arpeggiators**, 17 **Basslines**, 17 **Sequencers**, 16 **BPM** patches and the rest are also rhythmical: 8 **Keys**, 7 **Drums**, 4 **Leads**, 4 **Transition Effects**, 3 **Ambient** sounds, 2 **Basses** and a **Soundscape** patch.

You can start your new track using any of these patch categories, by finding the perfect BPM pad for a punchy Bassline, or an Ambient drone with a vibrating Arpeggio in minutes.

"In fact all of my arranging and composing skills went into building these patches and when I was composing the demo, all I had to do: just choose the next patch.
I was also very happy to recognise that the XY pads in Hive can contain the Ctrl A (Breath) and Ctrl B (Expression). So I have programmed them there also for those who don't have a masterkeyboard with addressable controllers. I know it was a problem for many of you who only has Modwheel and Pitch Bender on your keyboard."

Now you can access for the XY pads even in the patch browser to try any possible controller variations.

See detailed patch lists!
Truly unique patches!

The expression of the patches was highly optimized through common controllers such as **Velocity** *(vel)*, **Aftertouch** *(At)*, **PitchBend** *(Pb)*, **Breath** *(Breath-CC02)*, **Expression** *(Xpress-CC11)* and **Modwheel** *(Mw)*.

Cubase .cpr and Midi files of the demos are helping understand some suggested use of the patches!

Inspiring Pulses provides a modern all-rounder soundset for composers and arrangers.

System requirements:
- ➢ U-he **HIVE** 2.0 or higher
- ➢ host program (DAW) with VST or AU, RTAS support

Install notes:
1. Unpack zip file and copy the **h2p** files to HIVE's **presets folder** found in one of the similar locations.
- ➢ OSX: MacHD/Library/Audio/Presets/u-he/Hive
- ➢ WINDOWS: ...\Vstplugins\Hive.data\Presets\Hive *or*
              ...\Documents\Hive.data\Presets\Hive

2. Unpack zip file and copy the **wav** and **uhm** files to HIVE's **wavetable folder** found in one of the similar locations.
   ➢ OSX: MacHD/Library/Application Support/u-he/Hive/Wavetables/
   ➢ WINDOWS: ...\Vstplugins *Hive.data**Wavetables*\
                       ...\Documents\Hive.data\ *Wavetables*\
