Thanks for purchasing Joseph Hollo's padsheaven soundbank for Zebra!

Joseph Hollo's
padsheaven

is a collection of

- 96 expressive, evolving, moving synth pads, both uplifting, light and airy as well as warm, deep, dramatic mysterious and icy.
- 32 carefully selected Keys, Leads, Plucked instruments, Drums & Basses.

PadsHeaven provide lots of emotional inspiration for film and ambient composers, keyboardists.

The expression of the patches was highly optimized through common controllers such as **Velocity** (*vel*), **Aftertouch** (*At*), **PitchBend** (*Pb*) and **Modwheel** (*Mw*).

The controllers will significantly change the sound in many cases, so you can get a totally different sound or character. I highly encourage everyone to play around with all of the assigned controls to find out what's hidden under the hood.

For this reason please open the **Patch Information** for valuable info about the controllers, playability and usage.
