

Thanks for purchasing Joseph Hollo's [padsheaven 2](#) soundbank for Zebra, the continuation of the original:

Joseph Hollo's padsheaven2

is a collection of

- 99 expressive, evolving, moving synth pads, both uplifting, light and airy as well as warm, deep, dramatic mysterious and icy.
- 19 carefully selected Keys, Leads, Plucked instruments, Drums & Basses.
- 15 Arpeggiated and rhythmical synths.
(128 + 3 variation + 2 bonus presets + **a demo MIDI-, and Cubase project file**)

PadsHeaven2 provide lots of emotional inspiration for film and ambient composers, keyboardists.

The expression of the patches was highly optimized through common controllers such as **Velocity** (*vel*), **Aftertouch** (*At*), **PitchBend** (*Pb*), **Breath** (*Breath-CC02*), **Expression** (*Xpress-CC11*) and **Modwheel** (*Mw*).

The **Aftertouch**, **Breath** and **Expression** controllers also reachable by the **XY Pads** on *Zebra2's Perform* page, so everyone can try and use them, even if they don't have multi-controller capable masterkeyboard.

The controllers will significantly change the sound in many cases, so you can get a totally different sound or character. I highly encourage everyone to play around with all of the assigned controls to find out what's hidden under the hood.

For this reason please open the **Patch Information** for valuable info about the controllers, playability and usage.
